PROFILE

Business and commercial analyst with a Master of Business Analytics with Distinction and a background in economics. Experienced in translating business priorities, stakeholder needs and performance data into practical recommendations, dashboards and business cases, and supporting their implementation. Skilled in commercial analysis, KPI reporting, stakeholder engagement and cross-functional project delivery, including digital performance and transformation initiatives. Proficient in Power BI, Excel, SQL and Salesforce.

WORK EXPERIENCE

Marketing Business Analyst | Tours Direct Limited, New Zealand

May 2025 to Nov 2025

- **Analysed national travel statistics, Salesforce and Mailchimp data, digital performance** and competitor activity to identify commercial opportunities, customer churn risks and performance gaps, translating findings into prioritised recommendations.
- **Benchmarked 12 escorted-tour operators and developed Power BI KPI reporting** to improve management visibility of customer, product and channel performance and support evidence-based commercial decisions.
- **Developed the business case for and led the Shopify migration**, gathering stakeholder requirements, coordinating business priorities and delivery actions, and supporting cross-functional implementation.
- **Implemented and monitored digital performance improvements** that increased cross-network traffic contribution from 17% to 84%, lifted engagement above 50%, and extended average engagement time from seven seconds to more than two minutes.

Graduate Teaching Assistant | University of Auckland

Jan 2023 to Dec 2023

- **Delivered tutorials in Intermediate Microeconomics, Global Economy and Principles of Economics**, translating complex models and quantitative concepts into clear, practical explanations for varied audiences.
- **Collaborated with lecturers to design assessments**, coordinate delivery and maintain consistent standards across written, oral and presentation formats.

Research Intern | Asymmetrics Research

Nov 2021 to Feb 2022

- **Collected, validated and analysed market, customer and competitor data**, conducted company outreach, and synthesised findings into market maps, proposals, reports and client deliverables.
